

Stencils

Do Now

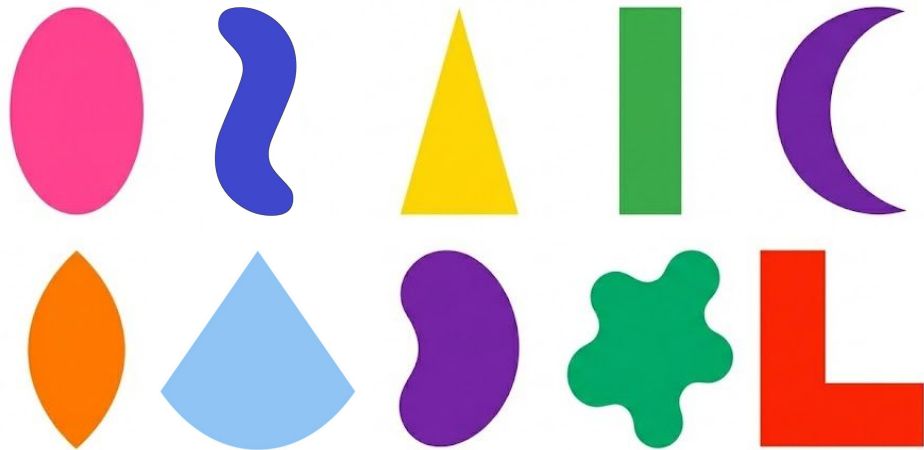

Clear your desk

Grab a piece of paper

Put your name on it

Discuss with partner:

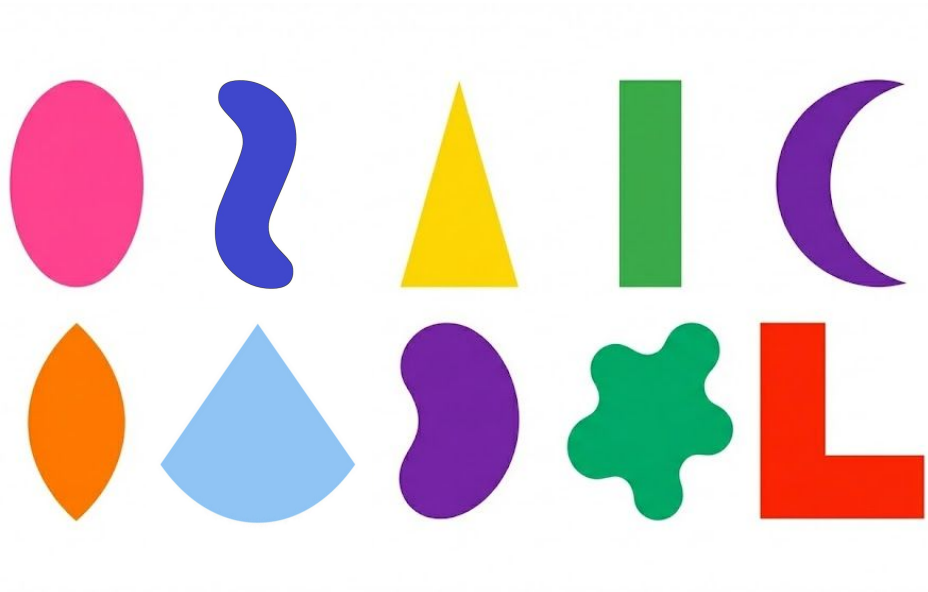

What parameters should a `draw_shape(...)` function have?

What parameters should a `draw_shape(...)` function have?

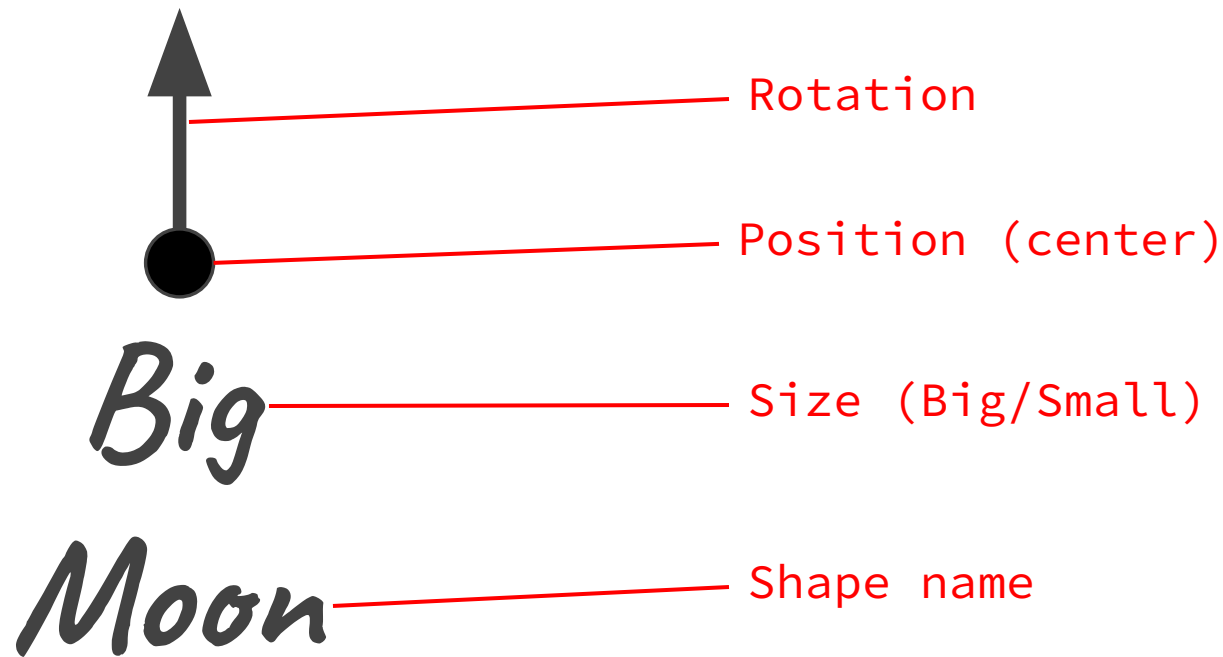

— — —

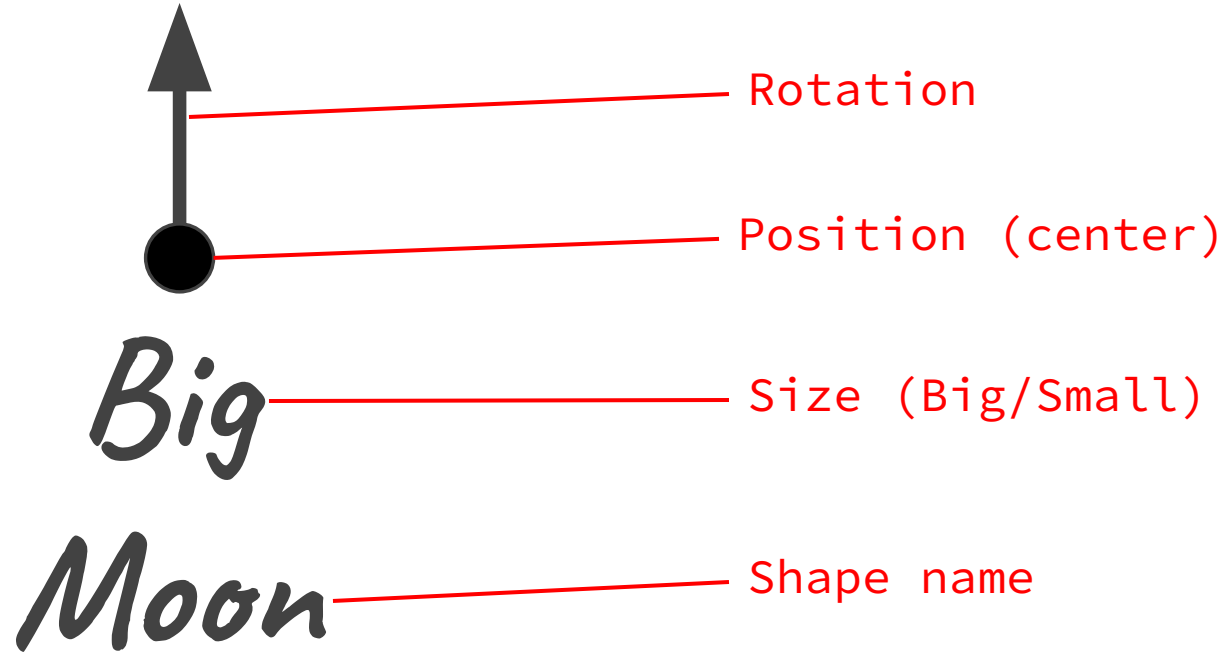

- Type/name of shape
- Position
- Size
- Rotation
- Color

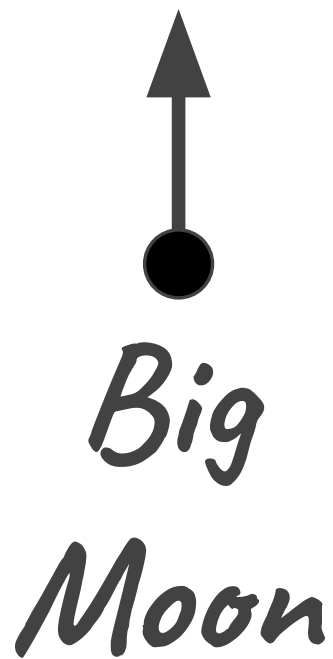

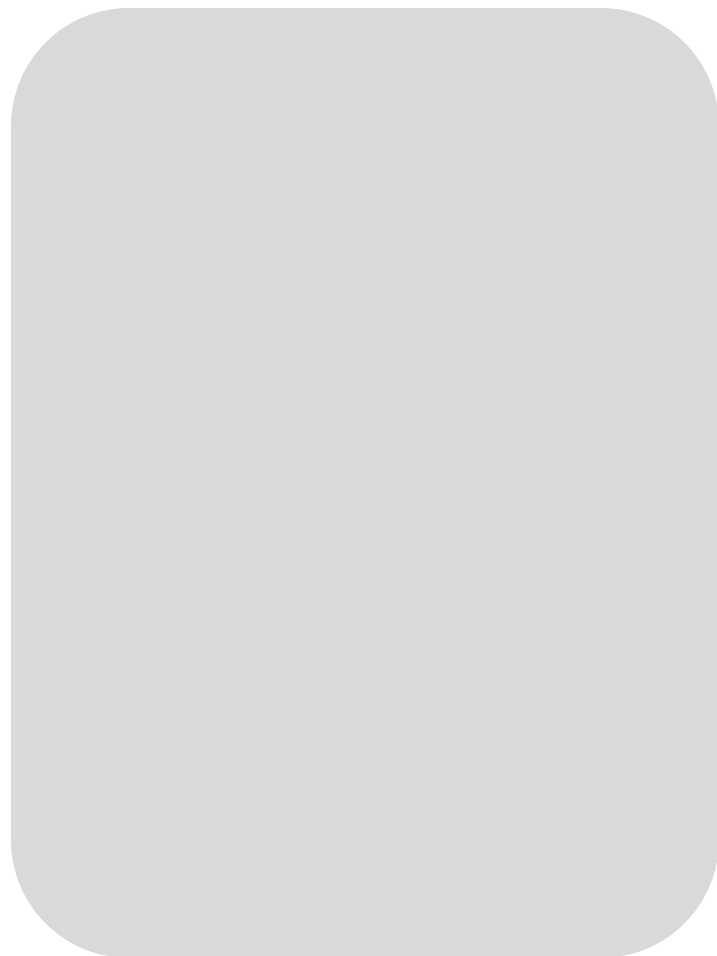

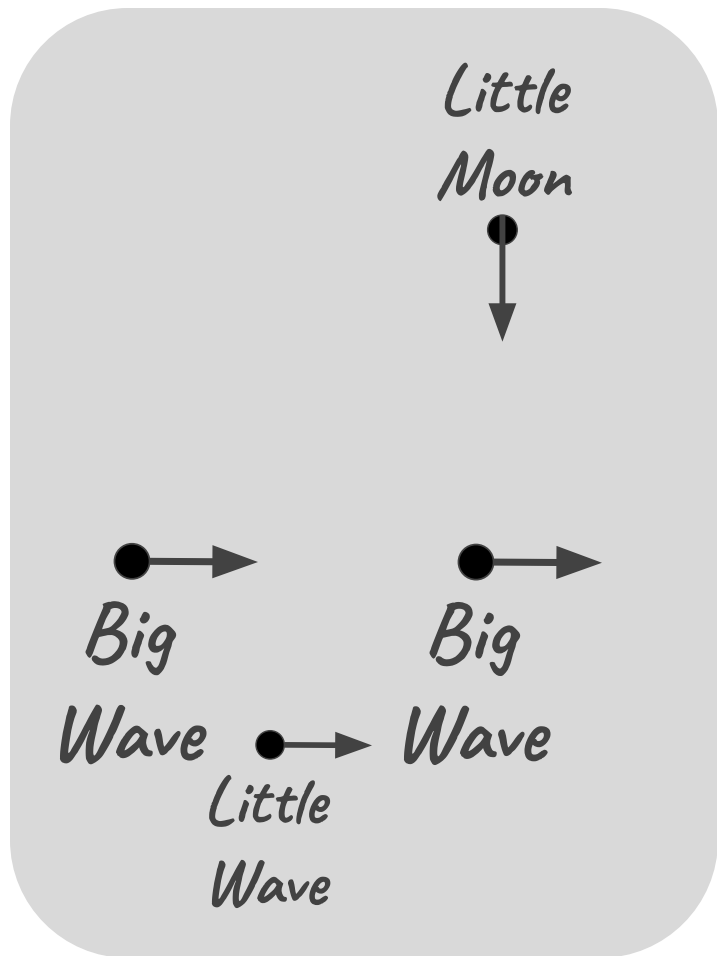

*Big
Moon*

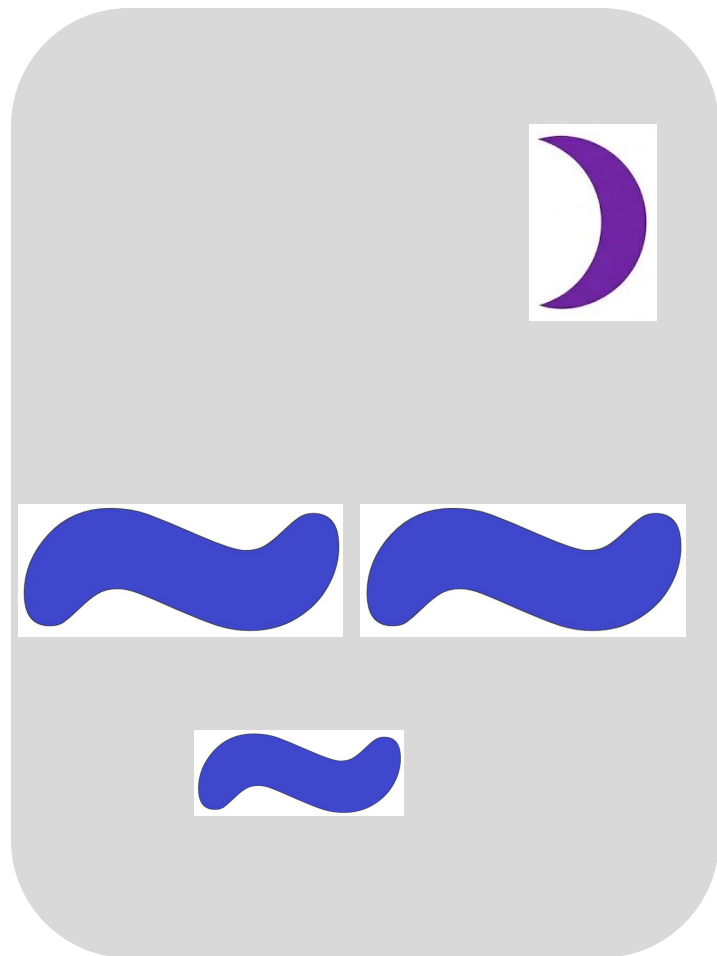

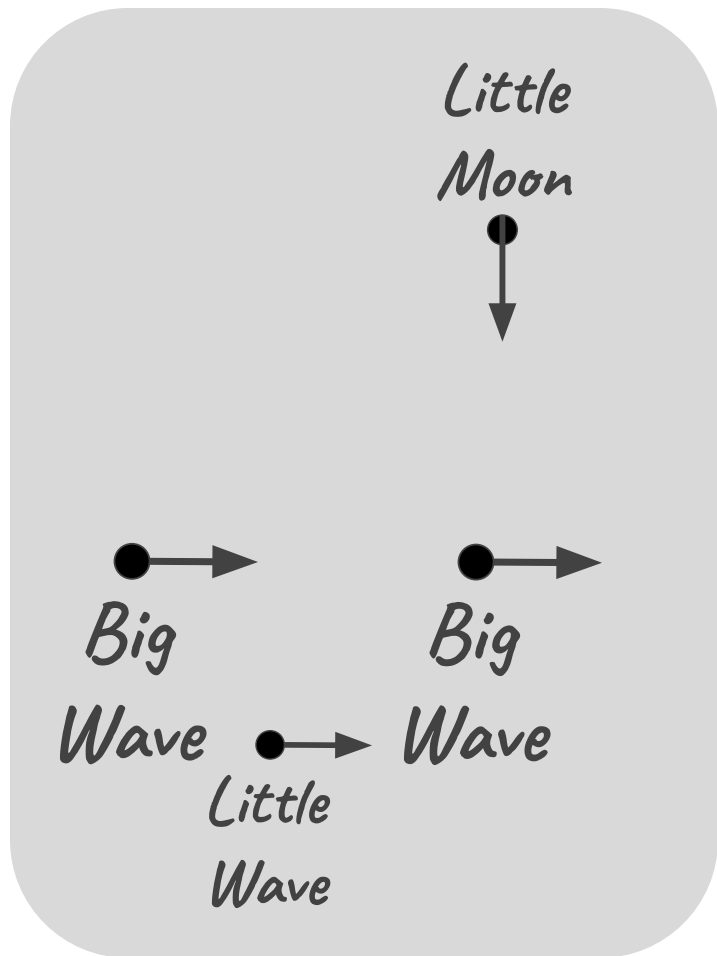

No color for now

Create your Blueprint - 5 min

Use 6+ unique shapes

Use 10+ total shapes

Use big/little shapes

Suggestions:

- *Graffiti art*
- *City skyline*
- *Garden/plants*
- *Abstract portrait*

Oval

Wave

Triangle

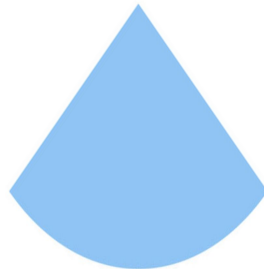

Post

Moon

Almond

Slice

Bean

Blob

L

Grab a stencil and a color

Rotate and Color

15 min

- Find your partner (the person with the big/small version of your stencil)
- You'll move around together as a pair, visiting each blueprint
- At each blueprint:
 - Look for your stencil name (Big ___ or Little ___)
 - Use your stencil to color in every spot where you see your shape name
- Move to the next blueprint when done
- Keep rotating until you've visited all blueprints
